Neonode® zForce Selective Area Touch Solutions provide the ultimate Experience in a Swedish Airport.

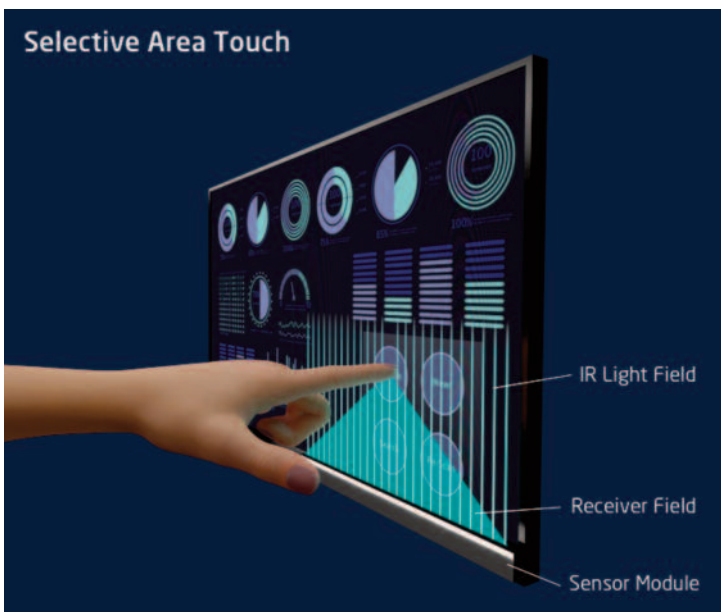

Neonode's innovative Selective Area Touch (SAT) solution is used to activate the menu system on two 55" Samsung displays in a Sandvik demo at Arlanda Terminal 5.

Travelers from all over the world can interact with the robotic demonstration and learn more about Sandvik and their leading innovation capability using Neonode's zForce SAT.

Don't settle for ordinary touch controls or display panels when you can design in a reliable, rugged and economical zForce into your next product today!

Over 68 million consumer products and 4 million cars have used the Neonode Optical Sensor technology.

Contact your Neonode Sales Representative to design zForce Optical Sensors into your next product today.
